

Dhanraj Vishwakarma

Full Stack Developer (MERN Stack)

✉ Rkdian118@gmail.com ☎ +91 8109775647  <https://www.linkedin.com/in/dhanraj-vishwakarma/>
📍 Nandbaag Colony, Indore, M.P.  <https://github.com/rkdian118/>  live:.cid.3d8aca261b97e4dc

PROFILE

Experienced **Full Stack Developer (MERN)** with **4+ years** of expertise crafting RESTful APIs using Node.js and Express. Demonstrated success in enhancing data processing speed by 30%, slashing API response time by 25%, and boosting API security by 15%. Proficient in API documentation and troubleshooting, committed to researching and integrating new technologies for optimizing API performance.

PROFESSIONAL EXPERIENCE

MindCrew Technologies

07/2024 – present
Indore, India

Full Stack Developer

- Designed and implemented microservices architecture.
- Managed and integrated MongoDB databases.
- Implemented continuous integration and deployment pipelines.
- Created and maintained RESTful APIs.
- Utilized Git for version control and collaboration.
- Deployed applications on AWS.
- Worked effectively in cross-functional teams.

Community Heritage Private Limited

05/2024 – 07/2024
Ahmedabad, India

Node JS Backend Developer

- Collaborates with clients and/or internal teams to understand user needs.
- Participate in the entire application lifecycle, focusing on coding and debugging.
- Write clean code to develop functional web applications.
- Collaborate with Front-end developers to integrate user-facing elements with server side logic.
- Gather and address technical and design requirements

Webmobril Gaming Studioz

03/2023 – 04/2024
Indore, M.P. India

Software Developer (Backend Development)

- Collaborates with clients and/or internal teams to understand user needs.
- Participate in the entire application lifecycle, focusing on coding and debugging.
- Write clean code to develop functional web applications.
- Collaborate with Front-end developers to integrate user-facing elements with server side logic.
- Gather and address technical and design requirements.

Saturncube Technologies

01/2022 – 03/2023
Ahmedabad, India

Backend Developer (Node JS)

- Build reusable code and libraries for future use.
- Liaise with developers, designers and system administrators to identify new features.
- Manage cutting-edge technologies to improve legacy applications.
- In-depth understanding of the entire web development process.
- Database merging skills in Node JS Backend Mocrservices Projects.

Havfly Services

06/2021 – 12/2021
Haryana, India

Junior Node JS Developer

- Integration of user-facing elements developed by front-end developers with server side logic.
- Writing reusable, testable, and efficient code.
- Design and implementation of low-latency, high-availability, and performant applications.
- Implementation of security and data protection.

EDUCATION

Bachelor of Engineering Rajiv Gandhi Proudhyogiki Vishwavidyalaya 	07/2014 – 12/2018 Indore, India
Intermediate (12th) Ideal Academy	07/2013 – 04/2014 Indore, India
10th Ideal Academy	07/2011 – 04/2012 Indore, India

SKILLS

Javascript/Typescript Strong proficiency with JavaScript.	Node JS Knowledge of Node.js with express JS framework.	MongoDB Knowledge of Mongo Database
SQL Knowledge of MySql and PostgreSQL	Git Knowledge of Github and Gitlab	React JS Admin Panel Created using Backend APIs
Microservices Knowledge of Microservices Based Projects	Websocket Worked on Socket.io for game development	Amazon Web Services EC2, S3, RDS, ECS, Route 53, SNS, SQS,
Lodash Competent in Lodash to simplify code	Jira and Trello Manage task and Sub-task	Azure Host databses in Azure

PROJECTS

Easy2Show  Project Description: Designed and implemented scalable microservices architecture, integrating mySQL for efficient data management. Maintained RESTful APIs, implemented CI/CD pipelines, and deployed applications on AWS. Utilized Git for version control and collaborated effectively within cross-functional teams. Skills Used: Node.JS, Express.JS, React.JS, mySQL, Lodash, Google Cloud Service, Chart.JS, Microservice Architecture.	05/2022 – 10/2022
Lead Management System (LMS)  Project Description: Developed a robust lead management system to streamline business development processes. Simplified lead tracking by enabling business development executives to input and differentiate between fresh and existing leads. Implemented admin features for API-driven import/export of employees and leads, efficient duplicate management, and seamless lead transfers between employees, improving flexibility and efficiency. Skills Used: Node.JS, Express.Js, MongoDB, React.JS, mySQL, Lodash, AWS EC2, S3, RDS, Route 53.	05/2023 – 06/2023
Living Rich  Project Description: Developed a comprehensive financial management mobile application featuring expense tracking, income management, and goal setting. Enabled users to input details such as living arrangements, family information, pets, and monthly income. The app intelligently allocates 10% of monthly income toward personalized goals, including saving for a car or planning a dream vacation, to help users achieve their financial aspirations. Skills Used: Node.JS, Express.JS, React.JS, MongoDB, AWS EC2, Route 53, nginx.	08/2023 – present

COURSES

JCHNE Jetking Institute Indore	02/2021 – 12/2021 Indore, India
